Production Editor: Sathish Kannan Asokan (email: eea@wiley.com).

Aims and Scope

Entomologia Experimentalis et Applicata (EEA) publishes top quality original scientific papers in the fields of experimental biology and ecology of insects and other terrestrial arthropods, with both fundamental and applied research questions. Concise reviews on timely topics in fundamental and applied entomology (so-called Mini Reviews) and Technical Notes on novel techniques are also welcome. Although the scope of the journal covers the entire field of entomology, EEA has established itself as the preferred medium for communication in the areas of physiological, ecological, and genetic interrelations between phytophagous arthropods and their food plants, and between arthropods and parasitoids, predators, and microorganisms, both pathogenic and benign. The application of genomics to the field of insect life history is a recent development that also falls within the scope.

Information for subscribers

Entomologia Experimentalis et Applicata is published in 12 issues per year. Institutional subscription prices for 2026 are: US\$6004 (US), US\$7004 (Rest of the World), €4132 (Europe), £3253 (UK). Prices are exclusive of tax. Asia-Pacific GST, Canadian GST and European VAT will be applied at the appropriate rates. For more information on current tax rates, please go to <https://onlinelibrary.wiley.com/library-info/products/price-lists/payment>. The institutional price includes online access to the current and all online backfiles for the previous 5 years, where available. For other pricing options, including

access information and terms and conditions, please visit <https://onlinelibrary.wiley.com/library-info/products/price-lists>. Terms of use can be found here: <https://onlinelibrary.wiley.com/library-info/products/price-lists/title-by-title-terms-and-conditions>.

Delivery Terms and Legal Title

Where the subscription price includes print issues and delivery is to the recipient's address, delivery terms are Delivered at Place (DAP); the recipient is responsible for paying any import duty or taxes. Title to all issues transfers free of board (FOB) our shipping point, freight prepaid.

Claims for Missing or Damaged Print Issues

Our policy is to replace missing or damaged copies within our reasonable discretion, subject to print issue availability, and subject to the terms found at Section V, Part C at <https://onlinelibrary.wiley.com/library-info/products/price-lists/title-by-title-terms-and-conditions#print-subscriptions>.

Back issues

Single issues from current and recent volumes are available at the current single issue price from cs-journals@wiley.com. Earlier issues may be obtained from <https://wolsupport.wiley.com/s/article/purchasing-single-issues-or-back-volumes>.

ENTOMOLOGIA EXPERIMENTALIS ET APPLICATA, (ISSN: 0013-8703), is published monthly. Postmaster: Send all address changes to Entomologia Experimentalis et Applicata, Wiley Periodicals LLC, C/O The Sheridan Press, PO Box 465, Hanover, PA 17331 USA.

Wiley is a founding member of the UN-backed HINARI, AGORA AND OARE initiatives. They are now collectively known as Research4Life, making online scientific content available free or at nominal cost to researchers in developing countries and enabling more researchers to publish open access by providing publisher backed waivers and discounts. Please visit Wiley's Content Access - Corporate Citizenship site: <https://www.wiley.com/en-us/corporate-responsibility>

Corporate Responsibility & ESG

ESG (Environmental, Social, Governance) is essential to Wiley's mission of unlocking human potential. For over two centuries, Wiley has a history of helping the world's researchers, learners, innovators, and leaders achieve their goals and solve the world's most important challenges. We take our role as a corporate citizen seriously and are guided by transparency, accountability, and industry best practices. Through intentional climate action and strategic social impact, ESG advances Wiley's commitment to sustainability, positive impact, and leading global change. Follow our progress at <https://www.wiley.com/en-us/corporate-responsibility>.

Instructions for Authors

Submission of manuscripts

Manuscripts submitted to *Entomologia Experimentalis et Applicata*, or any part of the work described therein, must be original and must not be simultaneously under consideration for publication elsewhere. Work previously published in abstract form should be referred to in the introduction.

Online

Manuscripts for *Entomologia Experimentalis et Applicata* should be submitted online at <https://wiley.atyponrex.com/journal/EEA>. Submission online enables the quickest possible review and allows online manuscript tracking. Manuscript submission online should be in Word document (.doc or .docx), which will be automatically converted to PDF for reviewing. Figures can be embedded in the native word processor file or may be uploaded separately in one of the following formats: GIF (.gif), JPEG (.jpg), TIFF (.tif), EPS (.eps). Figures uploaded separately in these file formats will be automatically converted to PDFs for reviewing.

Full upload instructions and support are available from the Research Exchange Submission portal via the Get Help Now button (now button at top right corner of each page). When prompted online, please submit your covering letter or comments to the Editor-in-Chief including one or two sentences describing the contents of the paper and its relevance to the focus of the journal.

Presentation of manuscripts

Manuscripts, including the references, should be double-spaced, in grammatically correct English. The title page should state the title of the paper, the names and addresses of the authors, a short title for running headlines, the full address of the corresponding author and up to 12 key words, which should not duplicate words in the title. An Abstract of not more than 300 words should include the reason why the work was carried out, the key techniques, the results and the major conclusions. Original articles should include, in the following order, Introduction, Materials and Methods, Results, Discussion, Acknowledgements, References, Figure legends (starting on a separate sheet), Tables. The text should preferably be in MS Word (PC or Mac format) and the illustrations must be submitted according to the Wiley digital illustration standards (see below). The Editors reserve the right to adjust style to certain standards of uniformity.

The SI system of units should be used for all scientific and laboratory data; temperature should be expressed in degrees Centigrade. Data that is integral to the paper must be made available in such a way as to enable readers to replicate, verify and build upon the conclusions published in the paper. Any restriction on the availability of this data must be disclosed at the time of submission.

Data may be included as part of the main article where practical. We recommend that data for which public repositories are widely used, and are accessible to all, should be deposited in such a repository prior to publication. The appropriate linking details and identifier(s) should then be included in the publication and where possible the repository, to facilitate linking between the journal article and the data. If such a repository does not exist, data should be included as supporting information to the published paper or authors should agree to make their data available upon reasonable request.

Technical notes

A short manuscript (up to four pages in print) that describes a new technique or rearing method, or substantial improvements of existing methods may be submitted as a Technical Note. These short manuscripts should have a short abstract, and can be organized either along the lines of a regular manuscript or authors may consider combining the results and discussion sections. Technical Notes should not present incomplete or preliminary data sets.

Illustrations

Illustrations must be in a finished form ready for reproduction. Subdivided figures should be lettered A, B, etc. in the top or bottom left hand corner. The maximum figure size is 175 × 224 mm. Magnifications should be indicated by scale bars. Labelling should be clear and sized appropriately for the intended final size that the figure is intended to appear in the journal. Figures should be referred to in the text as (Fig. 10).

Electronic artwork. We would like to receive your artwork in electronic form. Detailed information on the submission of electronic artwork can be found at https://authorservices.wiley.com/asset/photos/electronic_artwork_guidelines.pdf

Colour illustrations. All figures will be reproduced in colour online and in print free of charge.

Note to NIH Grantees

Pursuant to NIH mandate, Wiley will post the accepted version of contributions authored by NIH grant-holders to PubMed Central upon acceptance. This accepted version will be made publicly available 12 months after publication. For further information, see www.wiley.com/go/nihmandate.

Proofs

The corresponding author will receive an e-mail notification with a link and instructions for accessing HTML page proofs online.

For full submission instructions, subscription and all other information visit: <http://wileyonlinelibrary.com/journal/eea>
